SUMMARY

Software Engineering student at the University of Jeddah, with growing experience in UX/UI design, Agile methodologies, AI technologies, public relations, and digital innovation. Actively involved in university tech communities, workshops, and hackathons, contributing to event coordination, design activities, and problem-solving challenges. Passionate about technology, and teamwork to develop creative digital solutions.

EXPERIENCE

Member, Tuwaiq Club UJ
09/2026 – Present
Member Of The Entrepreneurship Track

Co-op Trainee, flyadeal
06/2026 – 08/2026
Co-op training with the Product team in flyadeal's Customer & Commercial department focusing on user experience and UAT.
- Ran UAT on web and app booking flows and logged defects in Azure DevOps
- Built Figma UX catalogs mapping booking and change-flight flows
- Benchmarked 9 competitor airlines and recommended 20+ features
- Co-wrote a BRD for flight-modification enhancements
- Published bilingual content live through Umbraco CMS
- Fixed check-in icon and wording issues with HTML/CSS

Vice Leader of the Public Relations Committee,
Electronic Games and Virtual Reality Club, University of Jeddah
09/2025 – 01/2026 | Jeddah, Saudi Arabia
- Supported the planning and promotion of gaming, UX/UI and VR events
- Managed communication efforts and coordinated workshops and student engagement activities.
- Contributed to securing sponsors for club initiatives and strengthening public outreach.

PROJECTS & ACTIVITIES

Data Science for Logistics Hackathon, Data Science club x SAS
05/2026
- Gained hands-on experience with SAS for data analysis and processing.
- Practiced handling and interpreting datasets under time pressure.

Ai Innovation Bootcamp, GDG On Campus | UJ × StartSmart Saudi
05/2026
- Co-built "Groc", a grocery price comparison app for Saudi families, winning 3rd place.
- Contributed to ideation, prototyping, and pitching under fast-paced collaboration.

InterfacePath UX/UI Workshop, EGVR Club
12/2025
- Gained hands-on experience designing interfaces in Figma.
- Observed and supported a rapid prototyping mini-contest, enhancing design and UX understanding.

Hajj Logistics Hackathon, University of Jeddah x Ministry of Hajj & Umrah
11/2025
- Worked collaboratively under pressure to propose logistical solutions for future Hajj operations.
- Strengthened teamwork, critical thinking, and problem-solving skills.

Digital Innovation & Entrepreneurship Bootcamp, University of Jeddah
10/2025
- Learned the process of transforming ideas into tech products from concept to prototype.
- Improved innovation, market research, and prototyping skills.

UJ Innovate Platform Testing, University of Jeddah
10/2025
- Contributed to testing a digital platform by identifying bugs and usability issues.
- Gained practical exposure to software QA and product testing.
